FIRE, SAFETY, & EMERGENCY PRECAUTION POLICY

Community Connections is committed to the safety and wellbeing of its staff, consumers, family members and visitors who spend time on the office premises and at any Community Connections properties.

In the case of an emergency, please follow all staff instructions and overhead announcements. When there is an emergency, remain calm, notify others, and respond to the emergency as appropriate. Each building at Community Connections has a written emergency evacuation procedure. Floor plans indicating exits, and fire extinguishers are posted in each building. In the case of most emergencies, the sound of the fire alarm and/or an announcement by Reception Staff will be made to evacuate the building.

All evacuation routes will be lighted and emergency generator lights will ensure that there is available light should the electricity in the building go out. To ensure safety, the company's disaster evacuation plan includes plans for all natural disasters, medical emergencies, bomb threats, terrorist attacks, and violence in the workplace.

A basic first aid kit should be available in each building and department. First aid kits will include physician-approved supplies suitable for medical emergencies that can reasonably be anticipated at Community Connections' facilities. Fire extinguishers are also located in each building. Fire extinguishers are checked annually. All employees are familiar with the location and operation of all fire extinguishers and First Aid Kits. The location of all facility fire extinguishers and First Aid Kits are indicated on the facility egress maps.
